Of Special Note: Adults Entering and/or Exiting Namibia and/or Botswana with Minor Children

Namibia and Botswana have instituted requirements for adults travelling with children under the age of 18.

Parents travelling with children will be requested to provide an official birth certificate that includes the details of the full name of both the child's father and the mother of all travelling children. This applies even when both parents are travelling with their children and it also applies to foreigners and citizens of Namibia and Botswana alike. When children are travelling with guardians, these adults are required to produce affidavits from parents providing permission for the children to travel. All documents must be in English.

Both parents travelling with child:

- When both parents are travelling with a child, such parents must produce an official birth certificate that includes the details of both the child's father and mother.

One parent travelling with child:

- In the case of one parent travelling with a child, he or she must produce an official birth certificate that includes the details of both the child's father and the mother. In addition, the parent must produce one of the following:
 - If the travelling parent has shared legal custody of the child: Consent in the form of an affidavit from the other parent registered as a parent on the birth certificate of the child authorizing him or her to enter into or depart from Namibia and/or Botswana with the child he or she is travelling with.
 - If the travelling parent has sole legal custody of the child: A court order granting full parental responsibilities and rights, or legal guardianship, in respect of the child, if he or she is the parent or legal guardian of the child; or where applicable, a death certificate of the other parent registered as a parent of the child on the birth certificate.

Child travelling with persons who are not their biological parents, for example adoptive parents, grandparents or persons given the parents' approval to enter into or depart from Namibia and/or Botswana with child:

- Where a person is travelling with a child who is not his or her biological child, he or she must produce a copy of the official birth certificate that includes the details of both the child's father and the mother.
- An affidavit from the parents or legal guardian of the child confirming that he or she has permission to travel with the child.
- Copies of the identity documents or passports of the parents or legal guardian of the child.
- The contact details of the parents or legal guardian of the child.

VACCINATIONS AND MEDICATIONS

A yellow fever vaccination is only required to enter all five countries if you are arriving from, or have transited through, a yellow fever-endemic area in South America or Africa. The CDC and WHO each provide a current list of all affected countries. If vaccination for yellow fever is necessary, you must carry an International Certificate of Vaccination provided by your physician; you may be denied entry without it. If your physician advises against receiving the vaccination because of your personal medical history, he or she can provide you with the necessary documentation for the country/countries you are visiting.

Restrictions on Taking Non-Prescription Medications into Zambia

The Zambian Drug Enforcement Commission (DEC) has in the past detained a number of travellers for possession of Benadryl and other over-the-counter medications which contain small quantities of diphenhydramine, an active ingredient that is on Zambia's list of controlled substances. Although unaware of these restrictions, travellers have been charged with drug trafficking offenses, had their passports confiscated, and been jailed. As a result, you should consider leaving all non-prescription medications behind.

OF SPECIAL NOTE

Age Restrictions on Bush Walks in South Africa

Due to South African government regulations, persons under the age of 16 are not allowed to participate in bush walks (game viewing on foot) at National Parks and private game reserves in South Africa. Persons over the age of 60 are required to produce a note from their physician stating that they are fit enough for such an activity. Note: Enforcement of these regulations can vary at each safari property in South Africa. We recommend guests over the age of 60 carry the physician's note as a precaution. These age restrictions do not currently apply to safari properties in Botswana, Namibia, Zambia or Zimbabwe.

Connecting through Johannesburg en route to Zambia

If you are connecting through Johannesburg en route to Zambia, in order to reduce the risk of your luggage being lost or delayed, we highly recommend that you do NOT check your luggage all the way through to Zambia and instead check it only through to Johannesburg and then re-check it prior to boarding your flight to Zambia.

In addition to this, as a further precaution, we highly recommend that you pack at least one change of clothing in your carry-on luggage as a precautionary measure in the event that your checked luggage is delayed.

Airport Taxes and Fees in Zambia and Zimbabwe

All applicable airport taxes and fees are included on our **Small Group Journeys** for both domestic flights within Zambia and Zimbabwe and/or international flights departing from Zambia and Zimbabwe.

If you are traveling on a **Signature** or **Tailor Made** program, both domestic flights within Zambia and Zimbabwe and international flights departing Zambia and Zimbabwe are subject to Departure Taxes and Aviation and Infrastructure & Development fees.

The current applicable taxes and fees in **Zambia** range in cost between 5 and 56 Zambian Kwacha (approximately USD \$1-\$10) per sector (subject to change without notice) and must be paid directly on site either in local currency or U.S. dollars.

The current applicable departure taxes in **Zimbabwe** are USD \$15 per sector (subject to change without notice) and must be paid directly on site in U.S. dollars.

Plastic Bags in Botswana

The government of Botswana has announced that it intends to implement a ban on plastic bags. The ban applies to "carrier and flat bags," primarily targeting bags from shops and grocery stores, but also extending to Ziploc bags, duty-free bags and bubble wrap. If tourists have those types of bags visible while in the airport, they are likely to be confiscated. Bags designed for multiple use, such as zippered cosmetic bags, are not included in the ban. The specific implementation date for this ban has not been confirmed, however, it may be prudent to adjust your packing to meet the standards of the ban regardless.

Plastic Bags in Namibia

The government of Namibia has implemented a similar ban on plastic bags in all game parks and reserves. If tourists have those types of bags visible upon entry into any national park or reserve, they will be confiscated.

PACKING LIST & BAGGAGE RESTRICTIONS

BOTSWANA, NAMIBIA, SOUTH AFRICA, ZAMBIA & ZIMBABWE

BAGGAGE RESTRICTIONS

On flights within Southern Africa, each passenger is limited to 1 piece of checked luggage and 1 carry-on bag with a combined total weight of no more than 44 pounds (20 kilograms). This includes the weight of purses and camera equipment in addition to your other luggage. Luggage restrictions are adhered to very strictly and passengers should pack their bags accordingly. Soft-sided luggage or duffels are required for luggage storage on safari vehicles and also on light aircraft used throughout Southern Africa. Dimensions of your checked bag should not exceed 23 inches (58 centimeters) long x 13 inches (33 centimeters) high x 10 inches (25 centimeters) wide. As a convenience, A&K provides each safari guest with a complimentary, custom-designed A&K Duffel. This bag is specifically crafted to meet airline standards*. Your carry-on bag should be small enough to fit in your lap or under your seat.

*Note: in addition to the size and weight restrictions noted above, O.R. Tambo International Airport in Johannesburg, South Africa also imposes additional restrictions for checked baggage. The A&K Duffel meets these additional requirements as well. However, if you plan to check any bags other than the A&K Duffel during the course of your journey, please be aware of the following regulations:

- Only regular shaped bags will be allowed to be checked in. All bags must have at least one flat surface to be accepted. Round or irregular-shaped bags will not be allowed.

- Bags with long straps will not be allowed. Long straps need to be detached and stored in the luggage (the strap on the A&K Duffel easily detaches and can be stored inside).

Passengers whose bags do not conform to the above rules will be required to have their baggage wrapped with one flat side at an approved baggage wrapping station within the airport.

Please use the provided A&K luggage tags, even if your bags already have ID tags. This makes it easier for A&K staff to collect and manage your luggage for you.

PACKING LIST

Choose comfortable and casual clothing in natural, "breathable" fabrics and versatile styles that can be layered as temperatures may vary considerably in the course of the day. For game viewing, wear neutral colors (though not camouflage, which is illegal in most national parks and reserves). Black, navy or other dark colors tend to attract insects. Smart casual attire is appropriate for evenings. Formal clothing is not necessary.

Note: If your itinerary includes a journey aboard the Rovos Rail train, the required dress code at dinner in the main dining car is a jacket and tie for gentlemen, and elegant for ladies, such as cocktail/evening dresses or suits. The Victoria Falls Hotel in Zimbabwe has relaxed its long-standing dress code for dining in the Livingstone Room. Long pants and collared shirts for men and corresponding attire for women are now considered the standard.
